

40"-80" Slim Dual Arm Full Motion TV Mount

SCL06 | 56-458mm wall distance | 60kg maximum load

A strong dual-arm full motion TV mount designed for medium to large televisions. The SCL06 combines a slim folded profile with 458mm of extension, allowing the TV to extend, tilt and swivel for flexible viewing. Its shallow retracted depth also makes it particularly useful for recessed TV installations where clearance is limited.

KEY FEATURES

Dual-arm full motion design

Strong, stable support with extend, tilt and swivel adjustment.

458mm maximum reach

Pulls the TV forward for flexible positioning and improved viewing angles.

Slim retracted profile

Retracts to just **56mm from the wall**, or approximately **42mm when using VESA 200x200mm or smaller**, for an exceptionally neat, low-profile installation.

Ideal for recessed installations

Slim folded depth and useful extension help the TV clear the sides of a recess before swivelling.

VESA 100x100 to 600x400mm

Compatible with a wide range of medium to large televisions.

60kg maximum load

Heavy-duty steel construction for strong and reliable support.

INSTALLATION NOTE

The 635mm-wide wall plate is suitable for installations across typical 600mm stud centres. Check TV weight, VESA pattern and wall structure before installation. Allow sufficient clearance around recessed installations for the required swivel movement.

TECHNICAL SPECIFICATIONS

Model	SCL06	Mount type	Dual arm full motion
TV size	40"-80"	Maximum load	60kg
VESA compatibility	100x100 to 600x400mm	Maximum reach	458mm
Wall plate	635 x 245mm	Retracted depth	56mm
VESA 200x200mm or smaller	Approx. 42mm retracted depth	Tilt adjustment	+5° to -12°
Movement	Extend, tilt & swivel	Construction	Heavy-gauge steel

LOW-PROFILE OPTION

With VESA 200x200mm or smaller, the SCL06 can retract to approximately 42mm from the wall.
