

Extendable Wall Projector Mount

SPWM04W / SPWM04B | 255-330mm adjustable wall extension

An extendable wall-mounted projector bracket for installations where ceiling mounting is impractical or unavailable. Ideal for concrete or feature ceilings, retrofit installations and rear-wall projection setups, with adjustable extension and projector angle control for accurate positioning.

KEY FEATURES

255-330mm adjustable wall extension

Fine-tune projector position to suit the installation.

Wall-mounted design

Ideal where ceiling mounting is not practical or possible.

Universal projector fit

Fits approximately 95% of LCD and DLP projectors.

Flexible 3 or 4 arm configuration

Adjustable arms suit a wide range of mounting-hole patterns.

Up to 320mm arm spread

Expandable to 380mm with optional extension legs.

+/-30 degree projector adjustment

Allows accurate image alignment and levelling.

Integrated cable management

Keeps cabling neat and concealed.

15kg maximum load

Extruded aluminium construction with powder-coated finish.

TECHNICAL SPECIFICATIONS

Model	SPWM04W / SPWM04B	Mount type	Adjustable wall
Wall extension	255-330mm	Maximum load	15kg
Wall plate	95 x 107mm	Projector adjustment	+/-30 degrees
Arm configuration	3 or 4 arm	Maximum arm spread	320mm standard / 380mm optional
Projector mount span	Approx. 182mm shown	Mounting height	Fixed once installed
Construction	Extruded aluminium	Colours	White or black

INSTALLATION NOTE

Requires a solid wall surface and the mounting height is fixed once installed. Best suited to rear-wall projector installations. Check projector weight and mounting-hole pattern before installation.
