

SUREMOUNT

Your TV & Projector Mount Supplier

SCL05XL

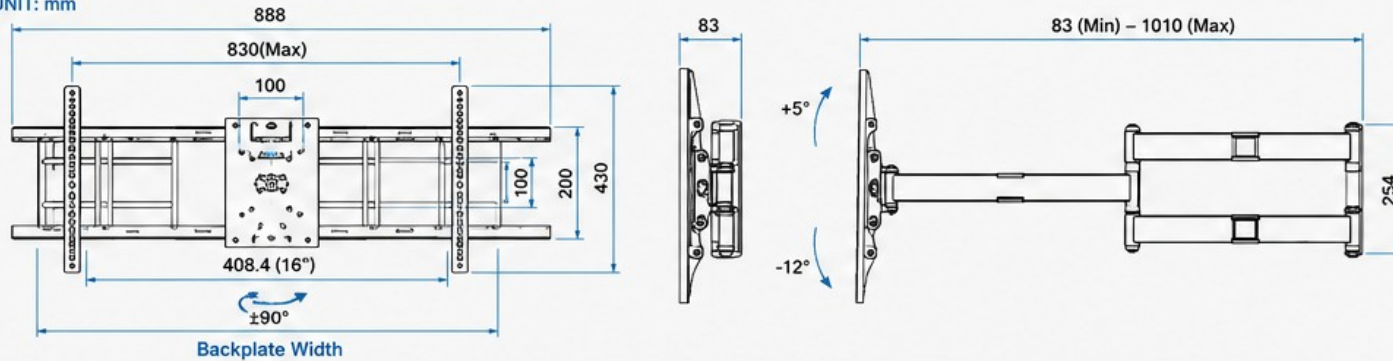

SINGLE ARM FULL MOTION TV WALL MOUNT

IDEAL FOR CORNER MOUNTING

Extra-long reach gives you the freedom to position your TV where standard mounts can't.

UNIT: mm

KEY FEATURES

- Extra-long 1010mm reach**
Single-arm design with an extra-long reach, bringing the TV well away from the wall before swivelling.
- 83mm retracted profile**
Folds back neatly when the additional reach is not required.
- VESA 200x200 to 600x400mm**
Compatible with a wide range of medium and large televisions.
- 50kg maximum load**
Heavy-gauge steel construction provides strong, reliable support for compatible TVs.

INSTALLER NOTE

The extra-long 1010mm reach creates substantial leverage on the wall than a conventional TV mount. SCL05XL must be securely fixed to suitable stud framing or a structurally sound concrete or masonry using appropriate fixings.

The wide wall plate is designed to provide useful flexibility for typical NZ wall framing.

TECHNICAL SPECIFICATIONS
